## About me #101

I am a results driven individual who possesses a natural ability and aptitude to deliver top quality work. I have knowledge and experience in the whole spectrum of the Fashion Industry( from concept development/creation to customer relationship and management). Completely in love with UX/UI and graphic design.Proven creative, innovative, management and leadership skills. A deft hand at sketching, pattern making and fabric manipulation. Sound knowledge of design and manufacturing process. Diverse experience in conceptualizing, designing, and managing various collections of clothing and accessories, its visual system and branding. Proven ability to catch the charges in industry's trends. I am not only a designer but someone who has a great sense of commerciality,capacity to capture customer's interest and drive sales. I work well under pressure and have a problem-solving mind-set. Extremely organised with a high level of attention to detail. Graduated with distinction.High proficiency level of English, intermediate level of Italian and Spanish. Fluent in Portuguese. Excellent intercultural and interpersonal skills.
